Design
Drives both Nails
& Cleats**

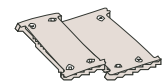

- Drives 1-1/2", 1-3/4" and 2" staples and "L" shaped cleats.
- Steel magazine base. Strong, lightweight aluminum chassis.
- Non-marring base plate allows driving close to walls. Includes small and large size base plates.
- Super balance. Nailer stands upright for smooth operation.
- Magazine loads from the rear and nails or cleats feed with a bypass pusher.
- Pneumatic fitting is angled so the hose does not interfere with the magazine or the operator's hand.
- Ergonomic handle design for easier use.
- Hardened driver blade for longer life.
- Nailing angle gives better wood holding power and allows the floor to contract and expand. Sturdy, attractive nailing results . . . every time!

- **Floor Dog™ Carrying Case** contains gun, white mallet, 2 face plate sizes, lubricant, adjusting wrenches and instructions.
- Lifetime warranty on metal chassis, 2 year warranty on pneumatic components, and 1 year warranty on nail channel components.
- **Floor Dog™** comes fully assembled and ready to use.
